IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of

Inventors: M. INAMORI, et al.

Application No.: 10/767,278

Filed: January 30, 2004

For: ATTENUATOR WITH SWITCH FUNCTION AND MOBILE
TELEPHONE TERMINAL DEVICE USING THE SAME

RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner of Patents
Washington, DC 20231

Sir:

In response to the Restriction Requirement of May 19, 2006,
Applicants hereby elect Invention I, claims 1-12 drawn to an attenuator
with a switch, classified in class 455, subclass 249.1, with traverse.

Applicants respectfully request withdrawal of the Restriction
Requirement. No unduly extensive or burdensome search would be required
to examine the various claims of the noted Groups in the same
application. MPEP §803 states:

"If the search and examination of an
entire application can be made without
serious burden, the Examiner must
examine it on the merits even though
it includes claims to distinct or
independent inventions." (Emphasis

added)

In the present case, the search for all pending claims together would not
be burdensome.

Moreover, from the standpoint of costs to the Applicants involved
in filing, issuance and maintenance fees relating to separate

applications if the present Restriction Requirement is maintained, it is clear that there is substantially more burden on Applicants by imposing the present Requirement than on the Patent Office if the Requirement were withdrawn.

In addition, it is noted that to require the claims of the various Groups to issue in separate patents would result in inconvenience to the public by necessitating reference to more than one patent during searching, to review closely related subject matter.

Therefore, withdrawal of the Restriction Requirement is warranted.

Reconsideration and withdrawal of the Restriction Requirement are respectfully requested.

Respectfully submitted,

James E. Ledbetter
Registration No. 28,732

Date: June 16, 2006
